PROFESSIONAL SUMMARY

Self-motivated Software Engineering student with hands-on experience in web development, backend logic, and AI-based applications. Strong interest in Python development, frontend frameworks, and cybersecurity solutions. Experienced in building full-stack applications, integrating AI features, and working independently on projects. Seeking an AI & Cybersecurity Development Internship at DeltaRoot to apply coding skills in a remote, fast-paced environment.

EXPERIENCE

SEO Intern – Gaotek Inc. (Remote)

- Worked independently in a remote environment
- Implemented on-page and off-page SEO strategies
- Conducted keyword research and competitor analysis
- Used Google Search Console for performance tracking
- Improved understanding of web performance and optimization

EDUCATION

BS Software Engineering (2022 – 2026)

National University of Modern Languages (NUML), Rawalpindi

Intermediate (FSc / ICS) (2019 – 2021)

Army Public School & College, Fort Road

SKILLS

Programming Languages:

C++, C#, Java, SQL, python, ASP.NET Core MVC

Web Development:

React.js (basic to intermediate), JavaScript (ES6+), HTML5, CSS3, MERN Stack (MongoDB, Express, React, Node – academic/projects)

AI & Cybersecurity Exposure

- AI-based text/comment classification
- Familiarity with secure coding practices
- Understanding of cybersecurity fundamentals

SEO Skills: Keyword Research, On-Page SEO, Off-Page SEO, Meta Optimization, Backlink Building

PROJECTS

AI in Cybersecurity – Cyberbullying Detection System (2025)

ASP.NET Core MVC | SQL Server | Entity Framework

- Developed an AI-based system to detect harmful and abusive online comments
- Implemented backend logic for comment analysis and classification
- Designed secure database structure for storing user data and comments
- Focused on real-world cybersecurity and AI use cases

Grocery Store Web Application (2024)

Web Development Project

- Built a web-based grocery management system
- Implemented product listing, cart functionality, and order management
- Applied frontend and backend integration concepts
- Followed modular and scalable development practices

SOFT SKILLS

- Self-motivated & disciplined
- Strong problem-solving ability
- Quick learner of new technologies
- Able to work remotely and independently
- Professional communication & work ethics

Tools & Platforms

- Visual Studio 2022, VS Code
- Git & GitHub
- AI coding tools (ChatGPT, Claude, Cursor – for debugging & optimization)
- Google Search Console, PageSpeed Insights

LANGUAGES

English – Professional

Urdu – Native
